OBJECTIVE

I am a 3rd-year BTech student at Woxsen University, interested in software development and looking for opportunities to apply my skills in real-world projects. I'm eager to gain practical experience and contribute to a team as a software development intern.

PROJECTS

Customized Recipe Finder App

Developed a web app that helps users find recipes based on given ingredients, providing details such as preparation time, calories per serving, and cuisine type (e.g., Indian, Continental). Features include a user dashboard where users can upload and share their own recipes, along with a favorites functionality.

Technologies Used: React, Redux, Tailwind CSS, Java (Spring Boot), MongoDB

Sports Complex Slot Booking App

Users can easily view and reserve time slots for games like badminton, chess, foosball, and snooker.

Admins can manage slot availability, control bookings, and provide updates on ongoing sports events.

Ensures smooth booking and management of sports activities within a college setting.

Technologies Used: React, Redux, Tailwind CSS, Java (Spring Boot), MongoDB

EDUCATION

Woxsen University, Hyderabad

2022-2026
